PRIVACY POLICY

For PhonoWriter

Innovation Center for Assistive Technologies

SUMMARY

OUR POLICY PRIVACY

Privacy is a very important matter.

We, at the Innovation Center for Assistive Technologies (IAT), believe that our users must remain masters of their own personal data. By being part of the European Union, our users are also submitted to the General Data Protection Regulation which allows them to control their data.

Whenever a product of ours comes to ask you to provide a personal data, you can decline. By doing so, some products may prevent you to use some features, but will remain usable in a limited way. If at some point the product requires to collect personal data, you will be notified and free to accept or decline the procedure. You can also revoke your decision anytime you want at your own will.

PERSONAL DATA COLLECTED BY PHONOWRITER

In order to improve the accuracy of the predictions given by PhonoWriter, your usage will be tracked. This allows the application to modify the occurrence of a word, or of a pair of words, and gives you adapted predictions for your usage. You will also be able to add your own words and pictures, which will be stored in a database located in your private folder. This database keeps all your modifications and will not be shared with anyone, or us. You have the right to choose if you want to keep those data or not.

PhonoWriter will also, depending of your version, ask you to provide your identity at the first launch, in order to verify the validity of your license. You are free to not provide your real identity when purchasing a license. In this case, you will be not concerned about this constraint.

Regarding the iOS version, nothing will be collected either [1].

PERSONAL DATA COLLECTED BY THE IAT

We do not collect and store any personal data from you.

---

1. Despite the warning given by Apple, the app DOES NOT take any information about you and will not send them to anyone. This alert does only occur because the app needs your approbation to use the speaker and to allow the container app and the extension to communicate with each other.

DATA SECURITY

Everything is stored in your computer/device and you have the choice whether to remove them, or not. We do not store anything from you in our servers except your license for macOS and Windows, which can be revoked anytime by contacting us.

HOW TO ACCESS AND CONTROL YOUR PERSONAL DATA

Your data can be found in the following directories. Refer to the version you are using to know where they can be found.

- **iOS** : The data are stored into the "My documents" folder of the sandboxed app. Removing the app will also remove your information like any other apps.

- **macOS** : The data are stored into your personal folder, under .local/share/PhonoWriter.

- **Windows** : The data are stored into your personal folder, under AppData/Local/PhonoWriter.

If you need information about your license, or need to change something about it, please contact the Innovation Center for Assistive Technologies.
